Department of Transportation  
320 Washington Avenue South  
Hopkins, Minnesota 55343

Dear Mr. Schmidt:

This report is in response to your request for Average Weekday Traffic (AWDT), peak hour volumes (AM and PM) and Heavy Commercial Average Weekday Traffic (HCAWDT) for the year 2010 on CSAH 70 (Medicine Lake Road) from CSAH 18 to CSAH 102 (Douglas Drive).

Projected year 2010 AWDT, peak hour (AM and PM) and HCAWDT volumes are presented in schematic form for CSAH 70 from CSAH 18 to CSAH 102 on Figures 1 and 2. Turning movement volumes are shown on Figures 1 and 2 at CSAH 70 and the following intersections (interchanges): West CSAH 18 Frontage Road, CSAH 18, Hillsboro, CSAH 156 (Winnetka), and CSAH 102. In addition, turning movement volumes are shown on Figure 2 at the West CSAH 18 Frontage Road and the CSAH 18 off and on ramps.

Volumes presented in this report are based on the following data sources:

1. The latest Metropolitan Council - Mn/DOT year 2010 computer traffic assignment of AWDT, PM peak hour and HCAWDT volumes to the year 2000 road network (2010/F2000).
2. Loaded link and tree (zone) analysis of the 2010 AWDT movements assigned to the year 2000 road network (2010/F2000) for the links and zones which would impact CSAH 70 from CSAH 18 to CSAH 102.
3. Mn/DOT current (1986) and historic Average Daily Traffic (ADT) counts on CSAH 70 and cross streets from CSAH 18 to CSAH 102.
